

# UPN

Universal Permanent Number

*Chien Yi Lee & Hugh Ching*

Founder of Post-Science

Copyright Owner of All UPNs

# Introduction

- How to assign permanent and globally distinct names to permanent entities, such as books, real estates, and DNA, where the names can be automatically handled by the computer, is the problem solved by Universal Permanent Number.  
**Two Existing Incorrect Solutions:**
- (1) All the past number systems apply to specific items or areas and, thus, can come into conflict.
- (2) Words are fuzzy: keyword systems cannot be well-defined or be automatically handled.
- The native language of the computer is integers.

# What Is UPN?

- UPN is the complete set of distinct integers from minus infinity to plus infinity.
- All the existing number systems, such as ISBNs, Patent Numbers, DNA ID Numbers, and all other ID Numbers, have been designed incorrectly because they are not universally distinct.
- UPN is globally or universally distinct and is for giving permanent names to permanent entities.
- UPN can be remembered not by the user, but by the completely automated Universal Permanent Software, when the number of UPNs is large.
- UPN is a Natural Standard, not an artificial standard.

# What Is the Social Significance of UPN?

- UPN is a product of life science, which is characterized by permanent existence.
- UPN exposes the short-sighted and narrow-minded design of the existing number systems and reflects the temporary nature and the finite consideration in science.
- UPN becomes essential when society is globalized, particularly, in the global search of information.

# What is the Knowledge Significance of UPN?

- UPN can be used to eliminate all the technical barriers, such as the technical barriers to computer usage, by representing all technical information with UPNs and by having Universal Permanent Software, not users, to remember the meanings of UPNs.
- Universal Permanent Software uses the Human Associative Memory to allow users to access an unlimited amount of information.
- UPN is based on the patent “Completely Automated and Self-generating Software System” (Pat. No. 5,485,601) and copyrights.

# What Is the Commercial Significance of UPN (First \$Multi-Trillion Market Cap)

- Each globally and permanently unique UPN could be worth as much and even more than a piece of real estate. For example, the listing price for leasing a 4-digits UPN is \$1 million.
- UPN is a real Intellectual Property, while patents and copyrights are intellectual rights.
- UPN is identical in concept as real estate; there is only one unique UPN or real estate in the whole universe.
- UPN can only be issued by one source (PSI).

# The Assignment of UPN

- **14-digits prefix=1 UPNs for people, DNAs.**
- **14-digits prefix=2 UPNs for real estates, stars and planets.**
- **14-digits prefix=7 UPNs for robots >\$10,000.**
- **14-digits (4) UPNs for books, articles, videos.**
- **15-digits UPNs for product serial numbers, companies.**
- **11-digits or less UPNs for VIP items.**
- **12-digits and up UPNs can leased in bulk.**
- **The largest UPN are for DNA sequence in the order of 10 to the power of one billion:**  
 **$10^1$  billion**

# UPNs Are Sold in Multiple of 100

- UPN Block
- 12345678901234567890
- Account#:
- 10000000000000000000 or 1+90+900

## Leasehold and Title

### Universal Permanent Number (UPN)

Post-Science Institute Conveys the leasehold of Universal Permanent Numbers

**168 (One Hundred and Sixty-Eight) for 100 years**

For a consideration of \$100,000 (One Hundred Thousand Dollars), Witness: \_\_\_\_\_

To \_\_\_\_\_ Print Name: \_\_\_\_\_

**Chien Yi Lee**

This document is recorded at the proper government agency, such as the county recording office, and the Universal Permanent Number(s) should be submitted to search engines. The ownership of the Universal Permanent Number(s) is transferable. The transfer of ownership should be recorded, and the Number(s) should be submitted to search engines.
